15th & Yale  
71st & Yale  
JM Davis Blvd., Claremore  
129th & 96th St. N, Owasso

# OR

## OTHER OPTIONS FOR MEDICATION DISPOSAL:

**U.S. Drug Enforcement Agency (DEA)** [www.deadiversion.usdoj.gov/drug\\_disposal/takeback/](http://www.deadiversion.usdoj.gov/drug_disposal/takeback/) Tulsa Office (918) 459-6400, the **Coalition Against Prescription and Substance Abuse of Tulsa (CAPSAT)** [www.capsat.org](http://www.capsat.org) (918) 595-4468 and the **City of Tulsa** [www.cityoftulsa.org](http://www.cityoftulsa.org) offer drug take back events in the spring and fall of each year. Watch for details through local media sources or check respective web pages to find out the date of the next event.

## FREQUENTLY ASKED QUESTIONS:

### How do I protect my identity?

All prescriptions are incinerated by law enforcement. If you are concerned, pour the pills, capsules and tablets into an unmarked plastic sealable bag. Seal it completely and transport to a collection site. Throw the empty vials and bottles into your trash. If you wish to prevent someone from reading the label, use a permanent ink felt tip marking pen to cover the letters and numbers. You can also remove labels and shred them.

### Why can't I donate my used medicines to a charity clinic?

There are both federal and state laws that make sharing prescription drugs illegal. If you take a pill that was prescribed to someone else or give your pills to another person, not only is it against the law, it's extremely dangerous.

### Why should I take my used medicines to a proper disposal site?

Unfortunately, legal medicines in household medicine cabinets have become poisons which, by accident or by choice, are dangerous to infants, children, adults and the elderly. Accidental ingestion, over dosage, improper use and abuse are commonly treated in emergency rooms and the number of deaths in Oklahoma from prescription medications are rising. Store your medications in a safe and secure location that makes the drug more difficult to obtain. Disposal by flushing or burying in landfills has increased pollution to unhealthy levels in our ecosystem. Disposal programs are safe, legal and are effectively reducing the possibility of improper use and removing large quantities of medications from our environment...**AND IT IS FREE!**

### Will these locations take my pet's medication?

Yes.

### What do I do with syringes?

Place them in a plastic container (like milk or juice comes in), tightly put on lid and place it in your regular trash.

### What do I do with liquid medication?

Pour the liquid into anything that will make it unattractive to drug seekers (coffee grounds, potting soil, cat litter), bag it up and place in your regular trash.

82% of Tulsa County residents do not properly secure their prescription medications allowing for potential theft or abuse. (ODMHSAS 2021)
