

# Could you be the new drug dealer in town?

## Most abused prescription drugs are stolen from friends or family.

192 Tulsa County residents died from a prescription opioid-related overdose between 2015–2017

## What can you do to help prevent prescription drug abuse?

### *Monitor*

Know what medications are in your home. Keep a regular inventory and avoid stockpiling medicines.

### *Secure*

Keep your medicine secure from children and adolescents. Keep medicine under lock and key to prevent theft.

### *Dispose*

Do not flush any medications. Bring unwanted or unused household medications and prescriptions to one of the safe medication disposal sites. (see reverse for locations)

The message is brought to you by the Coalition Against Prescription and Substance Abuse of Tulsa (CAPSAT). Funding provided by Substance Abuse and Mental Health Services Administration (SAMHSA), Center for Substance Abuse Prevention (CSAP) and the Oklahoma Department of Mental Health and Substance Abuse Services (ODMHSAS).
